**OS-D64**

The OS-D64 is a contactless, switch plate mounted reader with an integrated keypad capable of reading smartcard proximity cards. This reader is compliant with ISO 14443 Type A & B and integrates 13.56-MHz contactless smart card proximity RFID technologies into this reader.

The OS-D64 reader is designed to cover both the worlds popular Mifare platform offer a globally accepted, secure and versatile access control solution. OSSI readers support the most popular smart card for simple system integration and the freedom to target different applications with the most convenient card technology.

To ensure the integrity of RF data transactions, data communication between the cards and readers is encrypted using a strong key with a challenge response protocol to thwart replay attacks. These versatile readers offer a wide range of adjustable settings to satisfy each customer’s individual needs, application requirements and system specifications.
